

■ Introduction

Nathan Littauer Hospital Nursing Home is part of the Nathan Littauer Hospital campus located in Gloversville. It is a short and long-term residential health care facility that is committed to providing skilled nursing care for 84 residents in an environment that maintains or enhances each resident's dignity and respect in full recognition of his or her individuality. The Nursing Home was opened in 1972 and is operated by Nathan Littauer Hospital, a voluntary, not-for-profit corporation. Single and double-bed rooms are available, each with a private bathroom.

■ Services

Residents have access to medical, dental, ophthalmology, podiatry and rehabilitation services. Attending physicians provide on-site diagnoses and treatment. Consultations with medical specialists are also arranged when indicated. If hospitalization is necessary, it is provided under a transfer agreement with Nathan Littauer Hospital. Other hospitals may be used as appropriate.

■ Nursing Services

Skilled twenty-four hour nursing services are provided to each resident as determined by his or her medical condition.

The facility provides for the total needs of the residents, as well as skilled respiratory care treatments, intravenous fluids, medication management and wound care. Nursing Rehabilitation is provided through interventions that promote the resident's ability to attain his or her maximum functional potential.

■ Rehabilitative Services

The Rehabilitation Services Department operates five days a week utilizing an interdisciplinary approach to deliver quality services to residents for short (2 weeks to 2 months) or long-term stays. Physical, occupational, and speech therapy are coordinated and oriented to return the resident to his or her maximum physical potential. Our professional staff develops the treatment plan with resident involvement as ordered by our physicians. Residents will be taught to safely carry out all necessary daily functions in an effort to maximize their independence and prepare them for a return to home or another appropriate setting when appropriate. A home evaluation serves to ease the transition from our facility to a home setting when appropriate.

■ Other Services

Our Social Services staff offers individual consultation and counseling. The interdisciplinary team will work with the resident and family to develop the plan of care. When discharge plans are appropriate the team will assist in the transition to home or another appropriate setting.

■ Recreation

Residents are encouraged to take advantage of a variety of stimulating activities offered throughout the day, in the evening and on weekends. Our recreation program includes special events, music, games, socials and entertainment. In addition, we plan special community outings with our van, inter-generational activities, and pet therapy. Residents' families are encouraged to join us in recreational activities.

■ Eligibility

Admission to Nathan Littauer Hospital Nursing Home is open to anyone who will benefit from our unique features and services. Addressing the concerns and needs of prospective residents and their families is an important part of the admission process. Please feel free to discuss your questions about care with members of our professional team. Nursing Home services are available to eligible applicants regardless of creed, color, national origin, handicap, sex, age, source of payment, marital status and sexual preference.
