

Financial Assistance Summary

Financial Assistance for low income, uninsured or underinsured individuals with their hospital claims is available to all who qualify. Our Financial Assistance program is in the form of a discount off of our Medicare payment rates. Any open balance including co-pay and deductible balances are eligible to be considered for a discount.

Who is Eligible?

“You” refers to the patient, or to the person who has legal obligation to pay for the patients care (e.g., a parent for a minor patient)

You are eligible for financial assistance if your income is less than 300% of federal poverty guidelines. Attachment A includes those guidelines. If you apply and are eligible, you will qualify for Financial Assistance. Homeless patients automatically qualify.

What Financial Assistance Will I Receive?

Financial Assistance, for those without insurance, is in the form of a discount off the amounts generally billed to Medicare. Assistance for balances after insurance will use a simple discount from the sliding scale. The discount is a sliding scale, depending on your income. Attachment A sets forth the discount percent available in the various income categories.

No qualifying patient will be charged more for emergency or other medically-necessary care than the amounts generally billed to Medicare.
