A Lippert Components Company

The Difference is Huge.
The Price is Not.

The average U.S. consumer
uses **3 PAPER
NAPKINS**
per meal compared to
**1 CLOTH
NAPKIN.**

It's truly amazing how much a cloth napkin can add to a dining experience. It can change an ordinary dinner into a memorable meal. Better yet, because using cloth napkins reduces paper waste, they are recommended by the EPA. 88% of diners also associate tables set with cloth with better service. Plus it can do all this for less than you might think. And. So to enhance the atmosphere of your restaurant, call Century Linen & Uniform.
