What is Financial Assistance?

Financial assistance is free or discounted healthcare provided by Nathan Littauer Hospital to patients who apply for Medically Necessary services and qualify based upon the family's gross income and financial assets (for example cash and savings). Full or partial assistance may be granted for hospital charges only (it may not include physician, radiologist or other professionals that bill for related services). Financial Assistance is for patients who do not qualify for other assistance programs such as New York State Medicaid.

Who qualifies for a discount?

Financial Assistance is available for patients with limited incomes, no health insurance or underinsured. Nathan Littauer Hospital, as a provider of emergency and medically necessary care, has a mission and a responsibility to provide such care to those patients in need. The hospital will maintain financial assistance policies that are consistent with its mission and values, taking into account each patient's ability to pay for services while considering the hospitals financial ability to provide care.
